OBJECTIVE

Aspiring Specialist Programmer with a strong foundation in computer science and programming, aiming to leverage my skills and knowledge gained during my academic career to contribute effectively to innovative projects at Infosys.

EDUCATION

Bachelor of Technology, CMR College of Engineering and Technology 2021-2025 CGPA: 9.0

Course: - CSE - Artificial Intelligence & Machine Learning .

2019 - 2021

Intermediate, Telangana State Residential Junior College, Sarvail. Course: MPC.

CGPA: 9.78

High School (10th Grade), Krishnaveni Talent School, Hyderabad.

2019

Board:SSC

CGPA: 9.8

SKILLS

C,CPP ,JAVA. Programing languages

Web technologies HTML, CSS, Javascript.Visual studio, Git, Github Developer tools

Data management SQL

PROJECTS

Car price predictor

10 Nov, 2023 - 02 Dec, 2023

Key skills: Python, Machine learning

This project aims to develop a system that can predict the price of a used car based on various factors. It utilizes machine learning techniques to analyze past car sales data and identify key features that influence pricing.

ASL Detection

Key skills: Python, TensorFlow, OpenCV, Deep learning

Developed a Deep learning model to detect and recognize American Sign Language (ASL) gestures from video input, facilitating communication for individuals with hearing impairments. .

ASSESSMENTS / CERTIFICATIONS

Infosys springboard java concepts

Aggregate: 90/100 Kev skills: Java

Awarded by Infosys, this certificate signifies a comprehensive understanding of Java programming fundamentals. It covers key concepts such as object-oriented programming, data structures, exception handling, multithreading, and Java APIs.

Robotic process automation

Aggregate: 80/100 **Key skills:** Python

Earned from UiPath, this certificate verifies my foundational skills in Robotic Process Automation (RPA). It includes comprehensive training on UiPath Studio, covering essential concepts such as workflow automation, data manipulation, selectors, exception handling, and debugging.

SEMINARS

Blue eyes technology

Blue Eyes Technology is an advanced human-computer interaction system that aims to create computational devices that can understand and respond to human emotions and intentions.
